

OFFERINGS & SERVICES

Puretek Group makes professional-grade theater and broadcast studio technology systems accessible to facilities of all sizes and budgets by working directly with end-users to design and deal high-quality turnkey systems, provide a bevy of services to ensure systems are well-maintained and code-compliant, conduct intensive training & education for system operators and students, and partner with industry leaders to assist with performances.

LIGHTING, A/V, AND RIGGING SYSTEMS

Turnkey solutions for new and existing stage, auditorium, broadcasting studio, and specialty systems of all sizes from elementary school cafeteriums to professional performance halls.

COMPREHENSIVE CONSOLE TRAINING + REFRESHERS

Intensive training or re-training to staff members on console operation and best practices led by industry professionals.

STUDENT CERTIFICATION CLASSES

Hands-on education for students led by industry professionals to provide show preparation, STEAM outcomes, vocational training, and college application builders.

LIVE SHOW ASSISTANCE

Professional support for productions or theatre rentals. Services include, but are not limited to, live console operation, show lighting plot creation, and live-streaming.

RENTALS

Lighting, A/V, control, and streaming equipment for production additions or as stand-alone systems for special events such as graduations, sport tournaments, etc.

ANNUAL LIGHTING SYSTEM MAINTENANCE

Regular maintenance of equipment ensures proper and safe operation, reduces risk of component failure, and keeps systems running effectively for the long term.

ETCP CERTIFIED RIGGING INSPECTION

OSHA-required rigging safety inspection for motorized, dead hung, and counter-weight rigging systems comes with report to fulfill code requirements.

CODE-MANDATED ANNUAL CURTAIN INSPECTION

Annual inspection of stage curtain & drapery fire-safety and hazards comes with a report for code compliance and recommended follow-up actions, if applicable.
