

PROJECT :

## FALLSBURG HIGH SCHOOL THEATER UPGRADE

### Project Overview

Fallsburg Central School District sought to revitalize Fallsburg Junior Senior High School's theater technology, aiming to enhance performance capabilities while aligning with modern standards. PureTek Group delivered a comprehensive solution, encompassing upgraded theatrical infrastructure, stage lighting, moving lights, house lighting, and audio-visual integration. The installation of cutting-edge RGBW Fin Lighting transformed the auditorium ambiance, while moving lights provided dynamic effects, including customizable school logo projections. Fallsburg Junior Senior High School now boasts a state-of-the-art theater equipped with advanced controls, LED fixtures, and an intercom system, enhancing both performances and safety. Delighted with the end result, the client commended PureTek Group's meticulous attention to detail and commitment to exceeding expectations.

### RGBW Fin Lighting

The installation of RGBW Fin Lighting introduces captivating effects to the auditorium, enhancing ambiance and mood. These DMX-addressable fixtures seamlessly integrate with performance lighting controls, offering versatile color wash control during events. The low-profile design ensures unobtrusive aesthetics, while the vibrant illumination accentuates the architectural features of the space.

### Moving Lights

Moving Lights revolutionize the stage experience with dynamic lighting effects that highlight performers and engage audience members. Equipped with custom school logo gobos, these lights can project intricate designs and effects, adding depth and immersion to performances. With their versatility and precision control, moving lights elevate the visual impact of productions, creating captivating moments that leave a lasting impression on audiences.

### Location

Fallsburg, NY

Winter '24

### Category

Theatre

### Partner

Keyboard Consultants  
Pantel Electric  
Northeast Stage

*"An upgrade like this allows our kids to have their senses delighted by the performances and events that will take place in this very room. We are also looking forward to the various concerts and academic ceremonies that will benefit greatly from the upgrades in lighting and audio in this auditorium."*
